Great Insulation – And Here’s Why

- Absorbed water reduces insulation’s R-value. FOAMULAR® XPS is manufactured with a process that results in a closed cell cross section, which means very little water will be absorbed.

- FOAMULAR® XPS is great for commercial and residential walls, residing projects, commercial roofs, foundations, underground utilities, under roads and more.

- FOAMULAR® XPS is available in a variety of compressive strengths and styles to suit the job.

- FOAMULAR® XPS is the only XPS that is GREENGUARD Gold certified.

- FOAMULAR® XPS is the first XPS with a third party, independently certified, minimum 20% recycled content by SCS (Scientific Certification Systems).

- FOAMULAR® XPS has an industry-leading lifetime limited warranty1 across all thicknesses and compressive strengths.
